

Go out and have a look at your soil

Information on soil health is available online at Victorian Resources Online or by calling the DPI Customer Service Centre on 136 186.

**DEPARTMENT OF
PRIMARY INDUSTRIES**

Give your soil a health check

Do you:

- Test your soil regularly to manage inputs?
- Make decisions based on soil conditions (too wet, too dry)?
- Maintain at least 50% ground cover all year round?
- Minimise cultivation and traffic?
- Know how deep crop and pasture roots are growing?
- Walk the paddocks and observe soil conditions?
- Think about how to invest in soil health as part of the farm business?

If you answered “no” to any of these questions, your soil may be overdue for a health check.
